

CLASS	II	Description: Trail connecting subdivisions from west end of Belgrade to River at Central Park Road. Recreational trail system connecting subdivisions west of Belgrade to the River at Central Park. Trail would connect in with Route #8. Most likely connection would be along the Frontage Road, however potential exists to use the Railroad land owned by Montana Rail Link south of the Frontage road for a better trail. An easement agreement would have to be reached with the Railroad. If future subdivisions are created along this route they could be required to build segments as well.
TREAD	NATURAL FINES	
MINIMUM WIDTH	6'	
DATE ADOPTED	2010
