

<b>CLASS</b>	I	<b>Description:</b> Trail system would create connections between existing trails in Triple Tree, Arrow leaf Hills and Painted Hills subdivisions. Trail links would also connect into the Gallatin Face Trail to the south.  The project area is currently wide as several individual trails need to be completed and all require easements be acquired from private landowners or the State of Montana. There is some potential for segments to be built with future subdivisions in the area. The Gallatin Valley Land Trust has actively been working in this project for several years and continues to work with landowners to complete trail segments.
<b>TREAD</b>	NATURAL FINES	
<b>MINIMUM WIDTH</b>	8'	
<b>DATE ADOPTED</b>	2010
