

CLASS	I	Description: Trail along Bozeman Trail and Haggerty Lane from Arrow leaf Hills Subdivision through the Bozeman Deaconess Property. Route would complete a critical piece of the Main Street to the Mountains project with GVL. Bozeman Deaconess Foundation owns the majority of the land which is split by a creek making a natural trail location. The Foundation has expressed interest in development of this parcel in the future. There is a high probability that the trail segment can be completed as part of the subdivision process in the long term. In the short term it might be possible to acquire a trail easement through the Deaconess property to complete the trail rather than wait for subdivision approval. GVL is actively working in this trail segment.
TREAD	NATURAL FINES	
MINIMUM WIDTH	8'
