

<b>CLASS</b>	ASHTO	<b>Description:</b> Safe Crossings at Jackrabbit and Huffine Lane. The existence of two major highways intersecting the community of Four Corners creates a problem for pedestrian crossings. A tunnel has been installed across Huffine to access the Monforton School. More of these types of tunnels are necessary in order to ensure that pedestrians can safely cross Jackrabbit and Huffine to reach recreational areas.
<b>TREAD</b>	NA	
<b>MINIMUM WIDTH</b>	NA	
<b>DATE ADOPTED</b>	2010	Tunnels are an expensive proposition and would be required to be implemented through the Montana Department of Transportation. Planning for them today is critical as it could take years before they are finally constructed.
