

<b>CLASS</b>	I	<b>DESCRIPTION:</b> Continue to upgrade the natural fines trails inside Headwaters State Park to paved trails for better ADA accessibility and road bike traffic.  Because this is entirely under the management of the State of Montana Fish Wildlife and Parks there is little that the county can do to mandate the trails be upgraded. The county can partner with Fish Wildlife and Parks when possible to assist in funding or construction of the trails if the public and the agencies feel it is warranted.
<b>TREAD</b>	PAVED	
<b>MINIMUM WIDTH</b>	8'	
<b>DATE ADOPTED</b>	2010
