

CLASS	I	DESCRIPTION: Loop trail under the interstate along old Rail Road grade through Old Town Three Forks. Route will begin south of interstate and follow old rail bed under the interstate hooking into Old Town Main to the river then following the old rail bed south to the Frontage Road where it will connect with the Headwaters trail. Because much of this route is abandoned rail bed, existing rural road, or dedicated road right of way, construction of the trail could be relatively inexpensive. Easements would have to be obtained from at least one private landowner.
TREAD	NATURAL FINES	
MINIMUM WIDTH	8'	
DATE ADOPTED	2010
