

<b>CLASS</b>	II	<b>DESCRIPTION:</b> Loop trail headed west from the Thriftway Gas Station in Manhattan connecting north into Poleman. Route will connect Taylor Park to the west end of Railroad Park in Manhattan by making a loop around the western edge of the town along Milwaukee Road.  While some of this route does follow an existing road much of it would require easements from private landowners. There is potential for long term addition of this trail feature through future subdivisions if Manhattan sees growth headed west.
