

"The problem

is that all the roads lead to Belgrade."

Jason Karp

June 7, 2001

BELGRADE TRANSPORTATION PLAN

TABLE OF CONTENTS

I. Introduction & Background

- History
- Background
- Study Area
- Transportation Planning Goals
- Public Involvement

II. Existing Facilities/Conditions

- Rail
- Air Travel
- Road System
- Traffic Volumes
- Traffic Control
- Truck Traffic
- Street Lighting
- Sidewalks/Bicycle/Pedestrian Facilities
- Public Transit
- Schools
- Parking
- Rail Crossings
- Access Control

III. Transportation Demand Forecasting

- General
- Population Projections
- Traffic Volume Projections

IV. Problem Identification

- Corridor Volumes vs. Capacity
- Intersection Levels-of-Service
- Accident Analysis

BELGRADE TRANSPORTATION PLAN

TABLE OF CONTENTS

V. Recommendations

- Urban System Street Standards
- Future Rights-of-Way Dedications
- Pedestrian and Bicycle Recommendations
- Traffic Calming
- Committed Major Improvements
- Proposed Major Improvements
- Proposed Transportation System Management (TSM) Improvements
- Rejected Projects

VI. Financial Review

- State and Federal Funding Sources
- Local Funding Sources
- Implementation Strategies

List of Figures

- I.1 Study Area
- II.1 Major Street Network
- II.2 Year 2000 Traffic Volume
- II.3 Access Control Nomograph
- III.1 Growth Rate Assumptions
- III.2 Year 2010 Traffic Volumes
- III.3 Year 2020 Traffic Volumes
- V.1 Pedestrian Facilities
- V.2 Belgrade Zoning Map
- V.3 Belgrade Subdivisions Map
- V.4 Proposed Transportation Improvements
- V.5 Broadway & Madison Alternate 1
- V.6 Broadway & Madison Alternate 2

List of Tables

- II.1 Parking Utilization
- VI.1 Summary Table of Estimated Costs
